ASIAN GENERATIONAL CURSES AND RELIGIOUS CULTS

Any religion other than Christianity is the worship of idols, worship of gods or worship of ancestors by heathen. Different types of witchcraft are practiced to contact the spiritual world. The following lists contain many types of witchcraft. Seeking any other source of information other than seeking GOD is an abomination to Him.

You must physically clean your house and property of any objects that pertain to Asian Religions. Then drive the demons out of your house and off of your property. Demons reside in the cursed objects or they can come out of the objects to torment you and your family. You must spiritually clean your body of the demons that have a legal right to reside in your body.

SIMILARITIES BETWEEN RELIGIONS OF ASIA

There are many similarities between the Far Eastern Religions. This means that there are many common demon names associated with these religions and their practices. Hinduism seems to be the source for most of the practices.
