7 PLANETARY METALS

GOLD 

Gold has the symbol of the sun perhaps because both are yellow-colored.
There are 63 other symbols for gold. From left to right: 12th c. to the 18th c.

SILVER 

Silver has the symbol of the moon; both are white-colored.

MERCURY 

Mercury had a cross in it, too, since copper absorbs mercury = corrosive.

COPPER 

Copper (Venus) is a circle (gold) above a cross (a corrosive substance).

IRON 

The symbol for Iron came from Mars, drawn to look like a shield and a spear.

TIN 

The symbol for Tin began as the symbol to invoke the God Jupiter.

LEAD 

Lead (Saturn) has a high cross because it was considered very corrosive.
